Mock Placement Test & Mock Interview Proposal

For DCSA Chandigarh

Proposed Session Date: Monday, 30 March 2026

Dear Ma'am/Sir,

Career Cafe is a Chandigarh-based career readiness initiative registered under the **Ministry of Corporate Affairs (MCA**) and recognized under **Startup India**. We specialize in campus placement preparation, mock recruitment experiences, and employability-focused interventions for college students.

We would like to propose a **Mock Placement Test and Mock Interview Session** for **DCSA Chandigarh** on **Monday, 30 March 2026**. The objective is to help students experience the structure, pressure, and expectations of real placement processes before the actual recruitment cycle begins.

Career Café	Purpose of the Proposal
Chandigarh-based placement readiness initiative focused on mock recruitment, interview training, and campus employability support.	To conduct a realistic placement simulation for DCSA students so they understand actual company patterns, elimination rounds, coding pressure, and interview expectations before the real placement season.

What Students Will Gain

- Exposure to actual placement-style screening rounds inspired by recruiter patterns seen across regional campuses.
- Early identification of weak areas in aptitude, coding, technical fundamentals, and interview communication.
- Improved confidence through simulation-based practice rather than theory-only sessions.
- Awareness of both on-campus and relevant off-campus opportunities, including selective drives and special-category hiring programs.

Proposed Event Flow

#	Activity	Duration	Objective
1	Placement Roadmap Session	30-35 min	Give students a clear overview of placement strategy, recruiter expectations, and upcoming opportunities.
2	Break The Mock – MCQ Round	25 min	Simulate elimination-style aptitude and technical screening used by top recruiters.
3	DCSA Best Coder – Live Coding Round	40 min	Build confidence for timed coding tests on an industry-style platform.
4	Technical Mock Interviews for Top Performers	Post-round shortlist	Expose top students to realistic technical discussions and project grilling.

Session Details:

1. Placement Roadmap Session | *Duration: 30–35 minutes*

- Overview of placement preparation strategy for DCSA students.
- Understanding shortlisting filters, recruiter expectations, and common student mistakes.
- Briefing on product, service, and analyst-style hiring tracks.
- Awareness about upcoming off-campus opportunities .

2. Break The Mock – MCQ Aptitude & Technical Elimination Round | *Duration: 25 minutes*

- Quantitative Aptitude, Logical Reasoning, Critical Thinking, and English Usage & Grammatical Correction.
- Technical aptitude coverage from C/C++/Java basics, Data Structures & Algorithms, DBMS, Computer Networks, and Operating Systems.

3. DCSA Best Coder – Live Coding Round on HackerRank | *Duration: 40 minutes*

- Timed coding assessment to build comfort with solving under pressure.
- Questions across core logic-building and programming fundamentals relevant to campus coding tests.
- Conducted in an industry-style environment to improve familiarity with standardized coding platforms.

4. Technical Mock Interviews for Top Performers | *Duration: Top 20 shortlisted students*

- Technical mock interviews conducted by experienced interviewers.
- Evaluation of communication, problem-solving approach, project explanation, and technical depth.
- Top overall performer will be considered for referral support for select larger companies, subject to profile fit and future openings.

Why This Collaboration Will Be Valuable for DCSA

- Creates a stronger placement-preparation culture on campus through practical exposure.
- Helps students benchmark themselves before the actual placement season.
- Gives the department a structured employability activity with visible student impact.
- Can be followed up with additional workshops or mock interview modules if the institution desires extended support.

We are confident that a collaboration between **Career Cafe** and **DCSA Chandigarh** will create meaningful value for students and strengthen their readiness for upcoming placement opportunities. We would be glad to conduct this session and look forward to your positive consideration.

If you require any clarification, please feel free to contact us.
